VEHICLE WASH SYSTEMS, INC. (VWS)

Headquartered in Weymouth, Massachusetts has been an innovative leader in the car wash industry for over 40 years.

Its President, Martin Geller, has over many years manufactured car washing equipment for both the individual car wash owner as well as developing custom systems for the automotive industry, truck and bus washes. As an Owner/Operator of numerous car washes over the years, Mr. Geller and his staff have a keen eye for what is needed to complete ground up projects as well as single pieces of equipment. With their combined experiences in the areas of electrical, mechanical, plumbing, etc., they can assure you that your project will be completed on time every time.

He along with his Distributor network and VWS family specializes in equipment for Full Tunnel washes, Self-Service bays, Drive thru units for garages and car dealerships, and Water Treatment systems.

VWS is the ***"One Stop Shopping"*** experience, providing the following services for their clients:

Automatic Tunnel & Rollover Car Wash Systems

Water Filtration Systems

Spot Free Rinse Systems

Tire Shiner Systems

Re-placement Parts
