

# Chemical Tire Applicators

The Lion - Heated Chemical Tire Applicator

## WHY UTILIZE A HEATED C. T. A.

Adding heat to the wheel cleaning process will cut down your car wash chemical expenses.

By utilizing the LION System in conjunction with a friction wheel cleaner, such as a poodle brush, and a high pressure water blaster, labor expenses will be minimized. The quality of your car wash wheel cleaning service will improve.

## SPECIFICATIONS: The Lion

- Heated to 140 degree Fahrenheit
